REMARKS

The Notice of Allowance and Fee(s) Due mailed 18 May 2005 has been reviewed. The notification of allowance is greatly appreciated. However, in lieu of paying the issue and publication fees, a Request for Continued Examination is being filed concurrently herewith.

Claims 12-16 were previously canceled without prejudice or disclaimer, claim 1 is amended, and claims 2-11 remain as originally filed. Thus, claims 1-11 are respectfully submitted for consideration.

With regard to claims 12-16, these claims were cancelled by the Examiner's Amendment that accompanied the Notice of Allowance and Fee(s) Due. Applicants, of course, reserve the right to file one or more divisional applications covering the subject matter of these claims, which were non-elected in response to the Restriction Requirement, mailed 5 April 2005.

Amended claim 1 recites a method for manufacturing a capacitor including "forming a nitride film on the first oxide film, whereby the impurity in the first oxide film is diffused into the interface of the first oxide film and the storage electrode." Support for this combination of features may be found in Applicants' specification as originally filed at, for example, page 9, lines 12-19.

It is respectfully submitted that claims 1-11 are patentable, and early notification to that effect is earnestly solicited.
